The Leon County School District does not discriminate against any person on the basis of sex (including transgender status, gender nonconforming, and gender identity), marital status, sexual orientation, race, religion, ethnicity, national origin, age, color, pregnancy, disability, or genetic information.

The purpose of this program is to prepare students for employment or advanced training in the building construction industry.

This program prepares students for employment or advanced training in the building construction industry. Instruction focuses on broad, transferable skills and stresses the understanding of all aspects of the building construction industry to include planning, management, finance, technical and production skills, and underlying principles of technology, labor issues, community issues, health, safety and environmental issues. Students receive training in carpentry and installation of drywall, and basic skills in HVAC, plumbing fixtures, electrical components, concrete and masonry. Training in construction OSHA, fork truck and first aid are part of this program. Students learn through classroom, shop and laboratory activities.

The content includes but is not limited to applying construction techniques; reading plans and specifications; and developing trade skills in carpentry, masonry, electricity, plumbing and air conditioning.
